Education has increasingly become the focus of public discourse and policy, with its methods, resources and achievements widely debated. As a result, educational systems are now more than ever faced with the challenge of improving their performance and of proving that suitable measures are being

Governance in Education - World Bank

Good governance in education systems promotes effective delivery of education services. Critical are appropriate standards, incentives, information, and accountability, which induce high performance from public providers (Box 1). Sound provider performance in turn, raises the level of education outputs (e.g. school retention) and can contribute to improved outcomes (e.g. student test scores).

This paper focuses on incentives, information, and accountability, that does not mean that standards Performance and Governance of Education Systems Education has increasingly become the focus of public discourse and policy, with its methods, resources and achievements widely debated.
