A graphic novel is a novel or story told with pictures and words, or, as Random House tells us, "a novel in the form of comic strips." There is certainly no specification about country of origin. Just because the phrase graphic novel doesn't conjure Japanese stories in your head doesn't mean that Japanese graphic novels shouldn't be on this list.

The End Of The Fucking World Amazon de Charles Forsman

It's definitely one of my favorite comics this year and I read a lot of graphic novels. I do think the price could be a touch lower. This seems like a \$10 book at most considering its fairly short and totally in black and white. Still, there's a lot of mediocrity out there and "the end of the f\$?!@ing world" definitely rises out of the pack to be something different.
