The Miller spoolmatic 30A spool gun. Upon close examination of the adapter, 250S and I have two for some ungodly reason, I noticed there were only three wires feeding it from the portable machine. I went to a friends machine and measured the output and found it was a simple 24V AC @ 1.0A on the "A" and "G" wires and a signaling wire on "B" to tell the machine to kick in the CV.
