[Is It Safe to Use PVC Pipe for Potable Water Applications?](#)

For this reason, many thrifty contractors and home improvement enthusiasts turn to PVC pipe and CPVC pipe for their home plumbing needs. It is also a great insulator, so outside environments will not affect the heat of water inside the pipe. While many people only use PVC for drainage and cleanouts, it can be the sole piping material in a home when used in conjunction with CPVC. In this [pvc water fittings | eBay](#)

Buy PVC Fittings & Pipes on Sale at the Best Prices Online

PVC fittings used specifically for waste water are sometimes called DWV (drain, waste and vent) fittings. PVC fittings are often white, tan or gray, but green, blue and yellow are also seen. There is no set meaning for these colors, though white and gray are most often seen in plumbing applications, and green is often used for sewage.
