[Your baby's first solid foods - NHS](#)

Your baby's first solid foods Introducing your baby to solid foods sometimes called weaning or complementary feeding should start when your baby is around 6 months old. How much your baby eats is less important to begin with than getting them used to the idea of eating.

[Weaning: When and how to stop breastfeeding | BabyCenter](#)

Baby-led weaning: Weaning is easiest when your child begins to lose interest in nursing, and that can happen any time after she starts eating solids (around 4 to 6 months). Some babies are more interested in solid food than breast milk by 12 months, after they've tried a variety of foods and can drink from a cup.

[How To Do Baby Led Weaning \(And Why You'd Want To\)](#)

First coined by Gill Rapley and Tracey Murkett in their book *Baby-Led Weaning: The Essential Guide to Introducing Solid Foods*, baby led weaning is an approach to introducing solid food where baby is allowed and encouraged to self-feed solid finger foods instead of receiving purées via spoon.

[Weaning from the breast - BabyCenter Canada](#)

This is known as weaning your baby from your breast. If you want to phase out breastfeeding before your baby is one, you'll need to give her formula milk instead. You can combine breast milk and formula as you ease your baby through the transition.

[Weaning from the breast | Canadian Paediatric Society](#)
Weaning from the breast is a natural, inevitable stage in a child's development. It is a complex process involving nutritional, immunological, biochemical and psychological adjustments. It is a complex process involving nutritional, immunological, biochemical and psychological adjustments.

[Baby-Led Weaning: The Essential Guide to Introducing Solid ...](#)

Gill Rapley, PhD, the pioneering champion of baby-led weaning, has studied infant feeding and child development for many years. She worked as a public health nurse for more than 20 years, and has also been a midwife, lactation consultant, and breastfeeding counselor.

[Baby-Led Weaning Paperback Book | Cheeky Monkey](#)

The natural, no-fuss, no-purée method for starting your baby on solid foods!

[Baby-Led Weaning: 5 Things You Need to Know Before You ...](#)

Include baby in family meals (this is the beauty of baby-

led weaning) and give him/her the food that the rest of the family is having (assuming it isn't a choking hazard). Know that most of the food may end up on the highchair, on the walls or on the floor, and this is ok. Your baby is getting most of his/her nutrition from breastmilk and/or formula until one year of age. Have fun with it!
